

Pushpendra Singh

React Native Developer | Software Engineer

Indore, India (Remote/WFH) | +91 95840 52090 | pushpendra.devera@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

React Native Developer with 4.6 years of experience building production mobile applications for Android and iOS. Strong in React Native, TypeScript, API integration, native platform integrations, real-time communication, push notifications, analytics, performance optimization, and release workflows. Core contributor to Dallal Real Estate Marketplace, a bilingual Kuwait-focused mobile app published on App Store and Google Play with property search, listing, messaging, calling, verification, maps, analytics, and OTA release support.

TECHNICAL SKILLS

Mobile: React Native, Cross-Platform Mobile Development, Android, iOS, React, TypeScript, JavaScript ES6+, React Navigation, i18next, RTL layouts, Hermes, Metro

State and APIs: TanStack React Query, Zustand, Context API, Axios, REST APIs, JWT authentication, refresh-token retry, AsyncStorage, Encrypted Storage

Integrations: Firebase Auth, FCM, Crashlytics, Sentry, Notifee, PushKit VoIP, CallKit, Android ConnectionService, CometChat, Google Maps, Algolia, Amplitude, FullStory

Testing and Delivery: Jest, React Testing Library, ESLint, Prettier, GitHub Actions, lefthook, OTA updates, hot-updater, App Store release, Google Play release, Android Studio, Xcode, Git, Postman

PROFESSIONAL EXPERIENCE

Cognith - React Native Developer

January 2026 - Present | Indore, India (WFH)

- Core contributor to Dallal Real Estate Marketplace, a bilingual React Native app published on App Store and Google Play with 75+ screens and 33 feature modules across property search, listing, chat, calling, broker verification, analytics, and release workflows.
- Built voice/video calling using CometChat Calls SDK with iOS CallKit, Android ConnectionService, FCM, Notifee, and PushKit VoIP for incoming call handling across foreground, background, and killed-app states.
- Implemented a multi-step property listing wizard with PACI address autofill, OCR-based civil ID parsing, AI-generated descriptions, media upload, validation, and 30+ tracked analytics events.
- Designed and maintained a centralized Axios API client with JWT token injection, 401 refresh-token retry logic, request cancellation, and migration support across 100+ REST endpoints.
- Delivered English/Arabic localization with i18next and reusable RTL layout helpers for property search, listing, chat, and profile workflows.
- Improved performance and stability using memoization, pagination, lazy loading, map marker stabilization, gallery flicker fixes, font bundle cleanup, Sentry, and Firebase Crashlytics.
- Supported App Store, Google Play, CI/CD, and OTA release workflows using GitHub Actions, TypeScript checks, Jest, React Testing Library, ESLint, lefthook, and hot-update channels.

Belgium WebNet Inc. - React Native Developer

December 2024 - December 2025 | Remote

- Developed React Native features across media, e-commerce, and service workflows using TypeScript, JavaScript, Redux Toolkit, REST APIs, and reusable component patterns.
- Integrated media playback, push notifications, profile and content workflows, search/filter flows, cart management, checkout, and Stripe payment handling.
- Improved app responsiveness through component reuse, state management cleanup, API loading/error handling, device testing, and UI performance fixes.
- Collaborated with backend, QA, design, and product teams to ship Android/iOS features, investigate production issues, and support release readiness.

Metafic - Software Engineer

January 2022 - November 2024 | Indore, India

- Built cross-platform mobile applications using React Native, React, TypeScript, JavaScript, and REST API integrations for Android and iOS.
- Developed reusable UI components and modular screens for product catalog, cart, checkout, search, scheduling, authentication, and notification workflows.
- Integrated Firebase authentication, analytics, Crashlytics, push notifications, third-party APIs, and secure storage patterns across mobile projects.
- Used Jest, React Testing Library, Postman, Android Studio, and Xcode to validate features, debug platform issues, and improve release quality.

EDUCATION

MCA, Acropolis Institute of Technology and Research - 2020 - 2022, Indore, India

B.Sc. (Computer Science), St. Paul Institute of Professional Studies - 2017 - 2020, Indore, India
